

You've decided to protect your pet with pet health coverage—but how do you get started?

Here's what to expect when enrolling in a pet insurance policy.

1

Know what your pet's needs are

The right pet insurance provider will have plans available for your pet's lifestyle and health needs.

For example, Nationwide® offers options for dogs and cats of every breed or size.

2

Enroll healthy pets

Pre-existing health conditions aren't covered by any pet insurance company, so it's important to enroll pets when they're healthy.

Pro tip: Cover pets early! Puppies and kittens tend to need more routine care than adult pets.

3

Pick a plan that works for you

Nationwide offers customizable pet insurance options to meet your pet's needs while targeting the right price for you.

Step 1:

Choose protection that makes sense for your pet

Step 2:

Dial your coverage level up or down to meet your budget

Step 3:

Go to any vet, then submit a claim for eligible care

4

Add coverage for each pet

Nationwide lets you customize your coverage levels for each individual pet.

5

Get the most from your plan

Nationwide members get *more*:

- Visit any vet, anywhere
- Pet prescription savings with Nationwide **PetRxExpress**™
- 24/7 pet health advice through **vethelpline**®
- And much more!

Don't forget to cut down on paper waste by choosing paperless document delivery.

Nationwide has a pet insurance plan for every pet and every budget. Find yours today.
